

The Mahindra Group focuses on enabling people to rise through solutions that power mobility, drive rural prosperity, enhance urban lifestyles and increase business efficiency.

A USD 16.7 billion multinational group based in Mumbai, India, Mahindra employs more than 180,000 people in over 100 countries. Mahindra operates in the key industries that drive economic growth, enjoying a leadership position in tractors, utility vehicles, information technology, and vacation ownership. In addition, Mahindra enjoys a strong presence in the agribusiness, aerospace, components, consulting services, defence, energy, financial services, industrial equipment, logistics, real estate, retail, steel, commercial vehicles and two wheeler industries.

Mahindra USA (MUSA) is part of the US \$ 16.7 billion Mahindra Group's Automotive and Farm Sector - the #1 selling tractor company in the world, based on volumes and the only tractor manufacturer in the world to win the industry's top two quality awards – the Deming Application Prize and the Japan Quality Medal, care of Union of Japanese Scientists and Engineers.

Houston, Texas based Mahindra USA (MUSA) is a wholly owned subsidiary of Mahindra & Mahindra Ltd. and began selling tractors in the USA in 1994. MUSA has since grown rapidly due to high customer satisfaction levels and strong customer referrals. Mahindra USA has four distribution points in North America to help meet the needs of its customers and the growing demand for its products.

Mahindra's professional-grade tractors range from 22 HP – 100HP – and include the revolutionary new Max series tractors. The Mahindra Max 22 and Max 25 are the first real tractors in the sub-compact market and feature true tractor performance and capabilities. The Mahindra Max 22 and Max 25 are joined by the industry's first mid-compact tractor, the Mahindra Max 28 XL, which has compact tractor performance and versatility in a near compact tractor size. All Mahindra Tractors are built with heavy-duty components that allow them to outperform other tractors in their class and are designed to provide consumers with the ability to push more, pull more and lift more, so they can do more, in less time.
